

Table of Contents

Teacher Materials

0.	Overview	
0.1	Preface	0- 1
1.	System Dynamics Curriculum	
1.0	Introduction to System Dynamics Curriculum	1- 1
1.1	Descriptions for Patterns of Growth/Decay	1-13
1.2	Writing and Modeling: Using a Notebook to Learn About System Dynamics	1-15
1.3	Newspaper Articles: Search for Dynamic Systems	1-41
2.	The Population Tutorial	
2.0	Introduction to the Population Tutorial	2- 1
2.1	BOTGs and Reference Graphs	2- 7
2.2	A Study of Population Growth	2- 9
2.3	A Study of Population Growth II	2-21
3.	Learning Generic Structures	
3.0	Introduction to Generic Processes	3- 1
3.1	Overview of STELLA Components and Operations.....	3- 3
3.2	Generic Processes I: Models Producing Linear Behavior	3- 7
3.3	Generic Processes II: Exponential Growth Models	3-11
3.4	Generic Processes III: Exponential Decay Models	3-21
3.5	Generic Processes IV: Convergent Models	3-31
3.6	Modeling Dynamic Systems: Review of Generic Structures .	3-37
4.	Easter Island Population	
4.0	Introduction to Easter Island	4- 1
4.1	Easter Island Population Model	4- 3
5.	Rain Barrel Activities 1 - 4	
5.0	Introduction to Rain Barrel Activities 1-4	5- 1
5.1	Rain Barrel Activities: Intro. to Drug Assimilation Model	5- 3

	Rain Barrel Activity 1	5- 3
	Rain Barrel Activity 2	5- 6
	Rain Barrel Activity 3	5- 8
	Rain Barrel Activity 4	5-12
6.	Drug Assimilation Exercises	
6.0	Introduction to Drug Assimilation Exercises	6- 1
6.1	The Drug Assimilation Model	6- 3
7.	Epidemics and Transferability of Structure	
7.0	Introduction to Epidemics	7- 1
7.1	NERD Simulation Record Sheet	7- 5
7.2	Questions for the NERD Simulation.....	7- 7
7.3	The Epidemic Model	7-11
7.4	Building Transferable Skills: Models Involving “Infection,” “Market Penetration,” and “Conversion”	7-19
8.	Urban Dynamics	
8.0	Introduction to Urban Dynamics	8- 1
8.1	Design and Use of a Dimensionless Multiplier	8- 3
8.2	Urban Dynamics Model	8-11
9.	Supply and Demand	
9.0	Introduction to Supply and Demand	9- 1
9.1	Material and Information Delays	9- 7
9.2	Supply and Demand Model.....	9-25
10.	System Dynamics Stories	
10.0	Introduction to System Dynamics Stories	10- 1
10.1	Modeling Dynamic Systems: System Stories Model Scoring Guide	10- 23
10.2	That Dam Model	10- 25
10.3	Lost Lake.....	10- 33
10.4	Pronghorn Antelope: An Age-Specific Population Study.....	10- 41
11.	Large Modeling Projects	
11.0	Introduction to Modeling Projects	11- 1
11.1	Steps In Modeling Process.....	11- 7
11.2	Project Timeline Guide	11- 9
11.3	Modeling Dynamic Systems: Original Model Scoring Guide...	11-11
11.4	Silver Paper Outline	11-11
11.5	Modeling Dynamic Systems: Silver Paper Scoring Guide	11-15

12.	Appendix	
12.1	Characteristics of a Good System Dynamics Model	12- 1
12.2	The System Dynamics Process	12- 3
12.3	Introduction to Generic Structures	12- 9
	Beginning Structures For Dynamic Hypothesis	12-11
	Generic Model Structures	12-15
12.4	Rubric for Understanding	12-19
12.5	Example Problem for System Dynamics Process	12-25
12.6	Special Considerations	12-35
12.7	Systems Thinking and System Dynamics Modeling Resources .	12-37
